DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The instantly claimed amino acid analogs are neither disclosed nor fairly suggested by the closest prior art: Goodman et al (US 5,808,146 09-1998) and Christensen et al (The Journal of Biological Chemistry, 1965, 240(9), page 3609-3616). Upon further consideration, the Examiner finds that Christensen's teaching of the control of natural amino acid transport pathways via N-methylation does not reasonably extend to the instantly claimed compounds which are substituted at the amino acid α -position, halogenated *and* N-alkylated. One of ordinary skill in the art would not, therefore, have had a reasonable expectation that the instantly claimed compounds would be transported via the same pathways as the natural amino acids and thus be subject to the same effects as those observed by Christensen.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by

37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Susan K. Doughty on January 28, 2009.

The claims have been amended as follows:

Claims 46 and 48-52 have been cancelled.

3. **All questions pertaining to an application that has been allowed should be directed to the Office of Patent Publications Image Assistance Center at 888-786-0101.**
